## Post Heavy Duty Lift - 4PL

### Description:

Hydraulic cylinder drive  
Capable heavy duty performance  
Safety lock system  
Extra long platform accommodating varies of vehicles

Easy maintenance  
Optional wheel free lift with a loading capacity of 3.5T .

The wheel free lift is hydraulically operated by the same power unit powering the main scissors and has a maxi-mum lifting height of 450mm above the main platform.

When completely lowered the main platform has a minimum height of 280mm which make it very convenient to be installed not only in foundation but also above floor, the on-ground model requires optional drive on-ramps.
